- 1 **It** is a perfect number. In number theory, a perfect number is a positive integer that is equal to the sum of its positive proper divisors, that is, divisors excluding the number itself. For instance, 6 has proper divisors 1, 2 and 3, and $1 + 2 + 3 = 6$, so 6 is a perfect number. The next perfect number is 28, since $1 + 2 + 4 + 7 + 14 = 28$
- 2 **There** are 28 Mansions of the Moon, which show the progress of the moon against the fixed stars.
- 3 **There** are 28 letters in the Arabic language
- 4 **Menstrual** cycle is 28 days.
- 5 **The** Sun's gravity is 28 times the earth.
- 6 **In** Jewish tradition there is a 28-year solar cycle in which the sun returns to its place in Creation every 28 solar years. This is commemorated in April every 28 years with the recitation of Birkat Hachama, the blessing of the sun.
- 7 **The** number of Hebrew letters in Genesis 1:1, the first verse of the Bible.
- 8 **The** number 28 depicted as 28 balls arranged in a triangular pattern with the number of layers of 7.
- 9 **The** Rutbas or Hudood of Imams (SA) are 28 according to Ismaili Muslim community
- 10 **There** are 28 elements of the cuboid: 8 vertices, 12 edges, 6 faces, 2 3-dimensional elements (interior and exterior).
- 11 **There** are 28 non-equivalent ways of expressing 1000 as the sum of two prime numbers.
- 12 **The** rotation time of the surface of the Sun varies due to it being gas and plasma. At 45°, it rotates every 28 days.
